IV Infusion

CUSTOM OPTION

CREATE YOUR PERSONALIZED DRIP BY STACKING CAREFULLY SELECTED INGREDIENTS ON OUR BASE IV, TAILORED TO MEET YOUR INDIVIDUAL WELLNESS ASPIRATIONS.

Extra Options:

- **One component:** \$32
- **Two components:** \$58
- **Three components:** \$79
- **If you require further options, please consult with the nurse.**

Ingredients:

• **Vitamin C:**

May help with Immune enhancement, reduce cellular damage caused by free radicals, anti-infective agent, antioxidant, improves mood and energy levels.

• **Vitamin B Complex (B1/B2/ B3/ B5/ B6):**

This family of B vitamins may benefit with cognitive enhancement, energy production, increases metabolism, cellular repair, anti-aging effects, improves anxiety/depression.

• **Vitamin B12:**

May aid in red blood cell formation, increases energy, improves mood, improves recovery from illness, and helps with cellular metabolism for weight loss.

• **Vitamin B3 (Niacin):**

May help with Cognitive enhancement, improve anxiety/depression and circulation, lower triglycerides, and reduces inflammation.

• **Vitamin B5 (Dexpanthenol):**

Typically given with other nutrients as it is important in multiple enzymatic function.

• **Vitamin B6 (Pyridoxine):**

May help improve cognitive function and mood, lower homocysteine levels, and improve skin and hair.

• **Vitamin B7 (Biotin):**

Important for skin/hair/nail health and may aid in improving nervous system function.

• **Vitamin B9 (Folic Acid):**

May help lower homocysteine levels, increase energy, treat anemia, and improve skin/ hair quality.

• **Magnesium Chloride or Sulfate:**

Aids as a Muscle relaxant and may help reduce pain, improve sleep, and nervous system function.

• **Zinc Sulfate:**

May help to increase testosterone levels and improve immune function, required for multiple metabolic actions.

• **Calcium Gluconate/Calcium Chloride:**

Important for bone/teeth help and multiple metabolic processes. Used as an added mineral.

• **Selenium:**

May help with immune enhancement, antioxidants, skin regeneration, DNA repair/anti-aging.

• **L-Lysine:**

Aids in wound healing may help to prevent HSV outbreaks and collagen synthesis (skin, hair, nail health).

• **Glutathione:**

May help with liver detoxification, Immune enhancement, metabolism of toxins, and wound repair, POWERFUL antioxidant.

• **ALA (Alpha Lipoic Acid)*Diabetic Patients* Please eat before injection:**

Powerful antioxidant. It may be helpful in weight loss, reducing inflammation, improving skin quality, and improving sleep. Boosts the body's natural antioxidant defenses. Used as an anti-aging compound, it may aid in reversing oxidative damage seen with aging.
